# Scholarships

Iliff provides a number of scholarships based on merit and/or need. All applicants for admissions are considered for available scholarships. Apply soon to meet deadlines.

We offer several awards based on merit, as well as need-based financial aid in the form of institutional grants, federal loans or work-study. While Iliff understands the primary responsibility for financing your education rests with you and/or your family, we are committed to assisting you in finding a variety of resources to help in that process.

**For more information about scholarships,  
please contact:**
